Naveen Velappan

90 Lejano Drive, White Rock, NM 87547

Ph: 505-695-3289 or 505-412-7502

velappan.naveen@gmail.com; velappan@nmsu.edu

Education

New Mexico State University (2023-2027) - Undergraduate Student Creative Media Institute, major in **Animation and Visual Effects** plus a minor in **Software Development**
Los Alamos High School – Graduated in May 2023. GPA: 3.6

NMSU (Fall 2023-Spring 2026)

Arts and Animation: History of Animation, Principles of story across media, Introduction to 3D animation, Beginning 2D animation, Digital Illustration Techniques, Story Boarding, Drawing for animation, Acting
for animation, Introduction to 3D modeling, 2-D Composition & Fx, Intermediate 2D Animation (spring 2026).

Software Development - Computer Science 1, Introduction to Data Structures, Object Oriented Programming, Software Development, **Generative Artificial Intelligence** (spring 26)

LAHS

Software/Programming Languages Maya, Toon boom, C++, Java, Adobe Photoshop, Krita, Blender, Unity

AP Computer Science, Digital Arts, Computer Game Design 1&2**,** Computer Graphics & Modeling 1&2, AP Language, AP US History

List of completed Projects – Animation (Naveen's portfolio site)

- Modeled and designed 3D characters with good topology, including face topology
- Completed movie posters in Photoshop, including texturing, and silhouette
- Created a lighted scene in Maya Arnold Renderer utilizing Rim key and fill, as well as AiAtmosphere for best atmosphere and mood with 3D characters
- Created Animations on Toon boom, including 12 principles of animation, and walk cycles from various angles
- Created a short 3D animation film from scratch (which got my whole class laughing), only utilizing the help of a Gooey system for character rigg, and few downloaded objects for the environment

List of Completed Projects – Software Development

- Created a Java program able to read a csv file and make the values attributed to an object, and then have that class inherited to an array that sorts and manipulates the object array
- Created data structures such as stack, queues, recursion, singly linked list and doubly linked list in Java.
- Created C++ code from scratch with a makefile and created a csv file for a grading system, having another class sort information from the csv file into attributes of a grade object, then creating another inherited class to organize the grades into vectors of similar courses and calculated GPA. ○ Implemented a game algorithm in C++ that avoids obstacles and collects prizes from a borrowed GUI system.

Work Experience

Los Alamos County Summer Intern – Summer 2025

- Fleet services

New Mexico Consortium -Summer 2024

- Server maintenance, hardware upgrade, software installation, IT trouble shooting.

Student intern Los Alamos County Golf Course February 2023- August 2023

- Opening and closing shop, picking up balls at practice arena, driving and cleaning golf carts, greeting customers and providing customer assistance

Awards and Club activities

Eagle Scout 2022
Chamisa PTO Scholarship award for Class of 2023
National Honor Society – Member since 10th grade

Science fair 9th grade: MowerBot -2nd prize at county and regional fair, qualified for NM State Science Fair
Robotics club: First Robotic Challenge (FRC) team member in 9th - 12th grade
LAMS and LAHS band: 3rd place in State MPA 8th grade and best section award (trombone)

Skills Interests

Diligent and hard worker IT, Computer Science, Problem solver Creative Media, Game Design
Pleasant and friendly personality Scouting and service projects

Citizenship – United States of America
